

FSP68 Issue 4
Hand Held Signalling
Lantern – 68mm

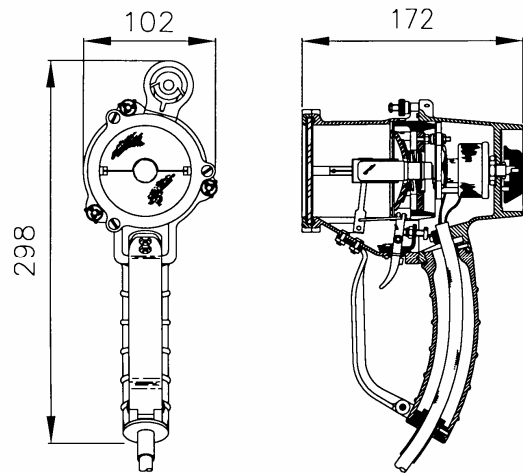

APPLICATION

The FRANCIS 68mm (2.5") handheld signalling light is used on small craft for ship to ship and ship to shore signalling utilizing Morse code.

The light is of all aluminium construction and is fully weatherproofed.

A separate 12v battery inclusive of wooden box is also available for portable use.

If desired this unit can be used as a spotlight when the dimmer switch is on maximum and the signalling trigger kept on.

- The projector has a variable light output which is controlled via an internally mounted dimmer.
- In favorable, daylight conditions the unit offers a signaling range of 3 miles.
- The light output of the unit can be reduced for short range signalling.
- The lantern is fitted with a 12v 12w lamp.
- Various types of power arrangements can be used.
- Can be fitted with an electrical connector to suit the application.
