

APPLICATION

The FRANCIS FSP300 Signalling range of searchlights is available as either a deck or deck pedestal mounting option and is suited to vessels that require a permanently installed day/ night visual signalling searchlight.

The high quality equipment will perform in the most demanding product operating environments on land and sea.

Standard features include adjustable focus mechanism and combined tubular and V sights. The well designed shutter mechanism can be locked in the 'open' position, allowing the unit to be used as a searchlight.
